

CURRICULUM VITAE

I

- a. **Name:** Olabisi Mary **Oluseye**
- b. **Department:** Nursing
- c. **Faculty:** Clinical Sciences

II.

- a. **First Academic Appointment:** Lecturer II
- b. **Present Post (with date):** Lecturer II (24th Jan.,2023)

III. **University Education (with dates)**

- a. University of Ibadan **2004 – 2008**
- b. University of Ibadan 2013 - 2014
- c. University of Ibadan 2015 – 2017

IV. **Academic Qualifications (with dates and granting bodies)**

- a. B.N.Sc. 2008
University of Ibadan
- b. PGD (Education) 2014
University of Ibadan
- c. M.Sc. (Nursing) 2017
University of Ibadan
- d. Phd. D. (Doctor of Philosophy) in view 2022

V. **Professional Qualifications and Diplomas (with dates)**

- a. Registered Nurse 2003 Nursing and Midwifery
Council of Nigeria
- b. Registered Midwife 2009 Nursing and Midwifery
Council of Nigeria
- c. Registered Nurse Educator 2016 Nursing and Midwifery
Council of Nigeria

VI. **Scholarship, Fellowships and Prizes**

NIL

VII. Membership of Learned Society:

- a. Member, National Association of Nigeria Nurses and Midwives
- b. Member, Graduate Nurses Association
- c. Member, Association of Nigeria Nurse Educators
- d. Member, Sigma Theta Tau International (Honors Society of Nursing)

VIII. Details of Teaching/Work Experience:

- a. Undergraduate:
 - i. NSG 311: Community Health Nursing I
 - ii. NSG 321: Community Health Nursing II
 - iii. NSG 322: Nursing Education Principles of Teaching and Learning
 - iv. NSG 412: Community Health Nursing II
 - vi. NSG 512: Community Health Nursing V

- b. Post graduate:
 - i. NSG 613: Health care Financing
 - ii. NSG 614: Adult Health & Gerontology
 - iii. NSG 728: Clinical Management of Families in PHC
 - iv. NSG 779: Community Health Nursing I

- c. Administrative Duties:
 - i. Member, examination committee
 - ii. Member, welfare committee
 - iii. Member, Departmental/ CoM Budget Committee
 - iv. College of Medicine COVID 19 Committee/ Virtual learning Technical Committee
 - v. Faculty of Nursing Committee
 - vi. Medical Education Committee
 - vii. Library Committee
 - viii. Assistant coordinator 500 level

- d. Community Services:
 - i. External Examiner, Nursing and Midwifery Council of Nigeria
 - ii. Facilitator, Pan-African Network for Rapid, Response and Preparedness for Infectious Disease Epidemics ISTH

IX. Research

a. Completed

- i. Knowledge and Perception of Uterine Fibroids among Women in a Sub-urban community in Ogun state, Nigeria.
- ii. Knowledge and Attitude towards Prevention of Iron Deficiency Anaemia among Pregnant women in Selected Antenatal clinics in Akinyele Local Government Area, Ibadan.
- iii. Knowledge and Perception of Pre-eclampsia and Eclampsia among Pregnant women attending Antenatal clinic in a State Hospital, Ogun state, Nigeria

b. In Progress

- i. Development of Nurse-led Health Educational Guidelines to improve Home management of Childhood diarrhoea among mothers in Ogun state, Nigeria

Diarrhoea disease is one of the diseases that are easy to manage at home without resulting into any complication and death. However, it is still responsible for almost half of a million children's death annually especially in developing countries. Several studies have been carried out on home management of diarrhoea, in which average to low scores have been reported on knowledge, attitude and practice of home management of diarrhoea among mothers with under-five children. The purpose of the study is to improve mothers' knowledge, attitude and practice of childhood diarrhoea home management through a well-designed health educational intervention program. This designed health educational program will be used in developing diarrhoea home management guidelines that can be adopted by local, state and national health authorities.

- ii. Parents' Knowledge, Perception and Attitude towards Substance abuse among Adolescent in Ibadan-North Local Government Area.

Substance abuse has become a global issue and has skyrocketed in recent years. Globally, the use of substance is very prevalent among adolescents and adult populations in developed and developing countries. It is also one of the major contributors to disability-adjusted life years. Substance abuse continue to be one of the key issues facing public health worldwide. Recent researches have shown that psychoactive drug use is becoming more prevalent in younger groups potentially leading to addiction. Adolescents take drugs for a variety of purposes, such as getting high, relieving stress, feeling mature, or testing the potency of a certain substance. These drugs have significant adverse effects on their health despite this, the use is still high among this age group. Parents roles in controlling this menace is quite very significant however the rate at which the adolescents are using these drugs seems many parents lacks knowledge or have poor perceptions of this problem. Hence, the need to assess Parents' Knowledge, Perception and Attitude towards Substance abuse among Adolescent.

c. Project, Dissertation and Thesis

- i. Predictors of Home Management of Childhood Diarrhea among Mothers in Ibogun community.**

X

- a. Books already published: Nil**
- b. Chapters in books already published: Nil**
- c. Articles that have already appeared in Refereed Conference Proceeding: Nil**
- d. Patents and Copyrights: Nil**
- e. Articles that have already appeared in learned journals:**

- i. Assessment of Maternal Strategies in the Prevention of Under-five's diarrhoea in Two Selected Communities in Ibadan, Oyo state.

g. Technical Reports and Monographs: Nil

h. Chapters in Edited Books/Revised Chapters in Edited Books: Nil

XI. Major Conferences Attended with Papers read:

1. IOH Conference Pan Atlantic Lekki, Nigeria 31st- August 2023.
2. African forum for research and education in Health, Kumasi, Ghana 30th August -24th September 2023
3. Southern New Hampshire University-Global Summit 2023, Manchester, United States 3rd October 2023.
4. Sigma Global Nursing Excellence, Ogun state, Nigeria. 21st November 2023.
5. 2nd International Scientific (Hybrid) Conference, INR 23rd-25th November 2023.

Research Focus:

As a Community Health Nurse specialist, my research focus is on strategies on preventing and controlling infectious and communicable diseases among under-five children. Diarrhoea is one of the infectious diseases responsible increase rates of death among children especially in developing countries. Child's health is the main focus of most of my studies. My interest in prevention and controlling health problems mostly among children prompted me to study health problems affecting mothers and families as a whole.

Identifying prevalence health problems affecting mothers and families and addressing such will help in preventing some potential health problems among children.
