

CURRICULUM VITAE

- I. (a) Name: Shakeerah Olaide GBADEBO
- (b) Department: Restorative Dentistry
- (c) Faculty: Dentistry
- II
- (a) Present Post (with date): Senior Lecturer
- III University Education (with dates)
- | | |
|----------------------|------------|
| University of Ibadan | 1993- 2000 |
| University of Ibadan | 2005-2007 |
- IV Academic Qualifications (with dates and granting bodies)
- | | |
|---|----------|
| Bachelor of Dental Surgery (B.D.S) University of Ibadan | Jun 2000 |
| Master in Dental Surgery (MDS) | Aug 2007 |
- V Professional Qualifications and Diplomas (with date)
- | | |
|--|----------|
| i. Fellow West African College of Surgeons | Oct 2011 |
| ii. Certificate course in Project management in Global health,
University of Washington | Apr 2020 |
| iii. Certificate course in Fundamentals of Implementation Science,
University of Washington | Oct 2020 |
| iv. Certificate course in Leadership and Management in Health,
University of Washington, | Dec 2020 |
- VI Scholarships, Fellowships and Prizes (with date) in respect of Undergraduate and Postgraduate work only
- | | |
|---|------|
| a. Fellowship with Consortium for Advanced Research Training in Africa. | 2020 |
|---|------|
- VII Honours, Distinctions and Membership of Learned Societies

- i. Member, Nigerian Medical Association (NMA).
- ii. Member, Nigerian Dental Association (NDA).
- iii. Member, Nigerian Society of Restorative Dentistry (NISORD)
- iv. Member, Medical and Dental Consultants Association of Nigeria (MDCAN).
- v. Member, International Association of Dental Research (IADR) (Nigeria Section).
- vi. Member, International Association for Study of Pain (IASP)

VIII Details of Teaching/Work Experience

a. Teaching experience (Undergraduate)

- i. Lecturer 1 – Department of Restorative Dentistry, College of Medicine, University of Ibadan. Apr 2012- Sept 2016
- ii. Senior Lecturer – Department of Restorative Dentistry, College of Medicine, University of Ibadan. Oct 2016 to date

b. Teaching experience (Postgraduate)

- i Postgraduate training of resident doctors in Restorative Dentistry leading to the award of the fellowship of the West African College of Surgeons and Nation Postgraduate College. Apr 2012 till date
- ii Postgraduate seminars, journal club and tutorials in Restorative Dentistry for junior and senior resident doctors.
- iii Clinical teaching and practical sessions in Restorative Dentistry for resident doctors.
- iv Lecture and seminars for Postgraduate student undergoing Master in Dental Surgery
- v Supervision of Dissertation for senior resident doctors
- vi Lectures/tutorials for Masters of Dental Surgery students – 1 hour per week

c. Work Experience:

- i. House Officer at the Dental Centre of University College Hospital, Ibadan. 2000- 2001
- ii. NYSC Dental Officer at Dental Maxillofacial Unit Garrison Port Harcourt, Rivers State. 2001-2002
- iii. Dental Officer, Maxillofacial Unit, Ring Road State Hospital, Oyo State Hospital Management Board: 2002-2005
- iv. Resident Doctor, University College Hospital, Ibadan, Oyo State 2005-2011
- v. Lecturer 1, College of Medicine, University of Ibadan. Apr 2012 - Sept 2016
- vi. Honorary Consultant, University College Hospital, Oyo State. Aug 2013- to date
- vii. Senior Lecturer, College of Medicine, University of Ibadan. Oct 2016 - to date
- viii. Consultant Conservative/Endodontist, Specialist Dental Clinic, Ministry of Health, Bisha City, Kingdom of Saudi Arabia

Apr 2019 to Mar 2020

IX Research

a). Completed

1. Comparison of two pain measuring scales in assessing pain in children: A cross-sectional study comparing two pain scales (Visual Analogue Scale and Wong Baker Facial Pain Scale) in assessing dental pain among paediatric patients and their parents/caregivers. Findings: The two pain scales can be used to assess pain in children and pain experience in children may be narrated by the parent/caregivers.
2. The Relationship between pain of irreversible pulpitis and salivary alpha-amylase level; study analyzed level of salivary alpha-amylase in patients with symptomatic irreversible pulpitis compared with control. There was significantly higher level of salivary amylase in individuals with pain of endodontic origin compared with control. Salivary amylase level may be an alternative method of endodontic pain evaluation.

b). In progress

1. Dental Anxiety: Assessing its burden and the effect of pre-treatment information communication among adult dental care seekers in Ibadan, Nigeria: This is a mixed method research using both qualitative and quantitative research designs, to understand the factors associated with dental anxiety among adults and assess the effect of pre-treatment information communication (as an intervention) on dental anxiety. Study is at analysis stage.
2. Level of Anxiety and pain perception of patients undergoing endodontic treatment: This is a cross sectional study aimed at assessing the anxiety level and pain perception of patient undergoing root canal therapy and to compare their perceived pain pre-treatment with the actual pain felt post treatment. Study at data collection stage.

c). Dissertation and Thesis

- i. Gbadebo, Shakeerah. Olaide, 2007, Orofacial Pain: Pattern of Presentation at the University College Hospital Dental Clinic. Presented to the Faculty of Dentistry, University of Ibadan in part fulfilment of the award of Master of Dental Surgery.
- ii. Gbadebo Shakeerah. Olaide, 2011, A Prospective Clinical Trial Comparing Metallic and Glass Fiber Reinforced Posts in the Restoration of Endodontically Treated Teeth. Presented to the West African College of Surgeons in part fulfillment of the award of Fellow of the College in Conservative Dentistry.

Dissertation supervised.

- i. Adebayo, G.E. (2020) Comparison of Conventional Visual and Digital Spectrophotometric Shade Selection Methods for Porcelain-Fused-to-Metal Crown Restoration. Submitted to the West African College of Surgeons in partial fulfillment of the requirements for the award of the Fellowship of the College in Conservative Dentistry.
- ii. Egbe, A.T. (2021) Comparison of the Sensitivity and Specificity of Three Pulp Test Modalities on Pulpally Injured, Vital and Root-Filled Teeth. Presented to the West African College of Surgeons in partial fulfillment of the requirements for the award of the Fellowship of the College in Conservative Dentistry.
- iii. Soyinka, M.A. (2021) A clinical comparative efficacy study of chemo-mechanical and traditional caries removal using laser fluorescence (Diagnodent). Presented to the National Postgraduate Medical College of Nigeria, in partial fulfillment of the requirements for the award of the fellowship of the College in College in Conservative Dentistry.
- iv. Okeaya-inneh O.C (2023) Comparison of Inferior Alveolar Nerve Block and intra-ligamentary injection in obtaining pulpal anesthesia in Nigerian adult molars with symptomatic irreversible pulpitis. Presented to the West African College of Surgeons in partial fulfillment of the requirements for the award of the Fellowship of the College in Conservative Dentistry.

Major conferences attended in the last five years with paper presented.

1. 5th Nigerian Association of Dental Public Health Conference. February 2017
Paper Presented
Management of challenging Endodontics by Undergraduate students.
2. 17th International Association for Study of Pain, World Congress on Pain. Boston Massachusetts (USA). 12th -16th Sept 2018.
Paper presented
Assessment of Basic Knowledge on Orofacial Pain Amongst Undergraduate Dental Students
3. 95th Greater New York Dental Meeting. 29th Nov -5th Dec 2019.
Paper co-presented
A comparison of the Prick Test and Cold pulp test as an Objective test of LA for endodontics and a look at the unusual third.
4. The International Association for Dental Research Conference. 2021 IADR/AADR/CADR General Session & Exhibition, July 21-24, 2021.
Paper presented
Factors associated with Rejection of Root canal treatment in a Developing country. A pilot survey.
5. 32nd International Congress of MWIA, Taipei Taiwan 24-26 June 2022.
Paper presented
Factors that influence the choice of oral health care and the effect on Oral Health-related Quality of Life (OHRQoL): A Qualitative Study.
6. 7th Biennial Conference of the Nigerian Society of Restorative Dentistry. Kano Nigeria
27th Oct 2022.

Papers Presented

1. An Audit of direct Composite restorations in a teaching Hospital.
2. Introduction of laboratory endodontics: Evaluating the perception of the undergraduate clinical dental students at a Nigerian University.
7. 63rd Annual Conference of the West African College of Surgeon. Lome Togo.
March 19-24, 2023.

RESEARCH FOCUS

My research focus is on orofacial pain especially that of pulpal origin, its assessment, and management, including the restorations needed to complete endodontically treated teeth while maintaining the tooth as a functional unit in the oral cavity and improving the quality of life of the individual.

The comfort of the patient during treatment (painful or not) is essential. Thus, my research also focuses on establishing a suitable and enabling environment for the patient through adequate information, psychological assessment while adding to good quality of life of the individuals with the dental management.
